Carson Energy Services offers a full range of Horizontal Directional Drilling services (a technique used to drill under existing structures, roadways/highways, rail lines or under environmentally sensitive areas such as rivers and parks) to its clientele from our Western Canadian locations.

DitchWitch JT 2020

While the majority of the division's HDD work is done primarily in Saskatchewan and Alberta, CES has the capability to travel anywhere. Our mission statement is, "The HDD Division of CES will exemplify the best that the horizontal directional drilling and

construction maintenance market has to offer throughout Canada. We will accomplish our mission statement by providing exceptional customer service and satisfaction while integrating health, environment and safety in all our activities."

DitchWitch 4020 AT

EXPERIENCE, STAFFING & SAFETY

The majority of our employees have over 15 years experience in the horizontal directional drilling field, and as with all Carson divisions, a strict safety program is administered by a Corporate Safety Officer. We are able to provide staffing and equipment on short notice and will consistently exceed your expectations.

HDD & CONSTRUCTION MAINTENANCE

Our main focus is horizontal directional drilling of any size and kind and we specialize in telephone, cable, fibre optic, power, gas, pipeline, water and sewer and soil remediation and sampling.

Excavation work

The division also performs general construction maintenance including hydrovac work, excavation, chain trenching, locater services, snow removal, frozen line thawing, steam trucks for water washing, cutting asphalt and frozen ground and pipe ramming (pneumatic hammer). We are able to provide any of your construction maintenance, call one of our managers for a quote today and to discuss how we can best meet your needs.

SUMMARY

Our division has all the equipment required to meet your needs, including horizontal directional drills that can pull cable through a bore 1" in diameter to boring to pull 48" pipe in all kinds of soil and rock. We also have grouting machines, pipe bursting machines, rubber tire backhoes, rod pushers, skid steers, excavators, trailers, picker trucks, zoom booms and directional augering. Our division is

able to provide quotes on jobs of any size, including difficult to access sites, crossings and materials with little disturbance to the surrounding environment. We can also drill through any type of earth, including clay, sand, and rock or a mixture of all.

Hydrovac

We have four locations to serve you better and can provide the machines you need at any of our locations. You can also conveniently reach any of our loctions toll-free from Western Canada at 1-877-775-DRIL.
