

FLINTTM

Infrastructure Services

At Flint Infrastructure Services, we have the construction resources and management needed to build large-scale projects for today's industry needs. With an uncompromising commitment to excellence, our area of focus and expertise is major facility construction projects ranging in scope from \$50 million to \$2 billion. We assemble an exceptional team of employees with construction capabilities for customers in oil sands extraction (SAGD, CSS and mining), upgraders and facilities, gas plants, power generation, utilities, co-generation, and forestry. Our employees and work teams are skilled and experienced to get your large-scale projects to production and have the resources to mobilize additional skilled personnel and tradespersons as needed.

Infrastructure Services consistently delivers projects on-time, on-budget and with the highest level of safety in the industry, and from this high-standard of excellence, Flint has earned a reputation as the industry's premier construction company.
