

Maintenance Services

Flint provides maintenance services ranging from pipeline repairs to regular maintenance and turnarounds for large process facilities and heavy oil (SAGD) facilities. Our employees are qualified indentured apprentices and journeyman trades-persons, and skilled labourers. Flint uses a comprehensive team-approach of working with customers to formulate a strategy together, using all of the disciplines available within Flint, to deliver your maintenance project on time, and on budget. Our teams are highly skilled and trained to client and industry standards in order to achieve optimal results, all with the highest regard for safety. We're your trusted partner.
